A Clinical Update on Intrauterine Contraception and
NEXPLANON® Clinical Training

Project: Title X

PART I: A CLINICAL UPDATE ON INTRAUTERINE CONTRACEPTION INCLUDING SPECIAL CASES & INSERTION TRAINING
APRIL 18, 1:00-4:00 (SHERATON HOTEL, BROOKFIELD, WI)

This accredited intrauterine contraceptive (IUC) training program begins with a didactic presentation which includes the history of intrauterine contraception, use of IUC and common myths, mechanism of action, non-contraceptive benefits, patient screening and counseling, side effects, and complications and insertion techniques. The hands-on portion of the training workshop is a skills-based training. The session is designed to provide clinicians with an overview of the safety and effectiveness of both the Copper T IUD and the levonorgestrel intrauterine system (LNG IUS) devices. These two devices are the only intrauterine contraceptives available in the United States. Trainees will have the opportunity to practice intrauterine contraceptive insertions with simulation models.

More details are available here: http://larc.ctcfp.org/content/program_description.

AUDIENCE
Clinicians who will be inserting (IUC) devices as a service in their clinical practice.

REGISTRATION INFORMATION
- Free of charge for clinicians employed at a clinic receiving Title X funding. For non-Title X clinicians, IUC training is $75 for nurse practitioners, or $100 for physicians.
- To sign up for this training, please email lbeaman@devsys.org. Include your name, clinic address, phone number, and email.
- As part of the LARC initiative, an application will be e-mailed to you. The application must be completed and returned in order to secure your spot in the training.
CONTACT HOURS

This program is approved for up to 2.5 nursing contact hours. Contact hours will be prorated according to documented attendance and actual session lengths. The University of Missouri-Kansas City School of Nursing Continuing Nursing Education Division is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

PART II: NEXPLANON® CLINICAL TRAINING
APRIL 18, 5:00-8:00PM (SHERATON HOTEL, BROOKFIELD, WI)

Attendees will learn important clinical data about NEXPLANON® and patient counseling. This session includes a hands-on training for insertion and removal procedures as well as localization techniques. Completion of this course will allow the attendee to order NEXPLANON® from an authorized distributor. This session is sponsored by Merck.

Note: Clinicians who completed the Clinical Training Program for IMPLANON® (etonogestrel implant) may be eligible for web-based training. Click here to contact Merck directly to determine your eligibility for the web-based option.

AUDIENCE

The training is open to advanced practice clinicians with furnishing numbers or prescribing privileges in their state and to physicians only. It is Merck’s policy to verify all clinicians’ practice, license, and eligibility information in advance of the training. Merck will contact the attendee directly if there is a problem regarding this process.

REGISTRATION INFORMATION

- Free of charge for clinicians employed at a clinic receiving Title X funding. For non-Title X clinicians, Nexplanon training is $35.
- To sign up for this training, please email lbeaman@devsys.org. Include your name, clinic address, phone number, and email.
- As part of the LARC initiative, an application will be e-mailed to you. The application must be completed and returned in order to secure your spot in the training.
- No continuing education credit is available for this session.
